

The logo for Marco1049, featuring the word "marco" in a white sans-serif font and "1049" in a larger, bold white sans-serif font, both set against a black rectangular background with a white border. To the right of the numbers is a small white diamond shape with a black cross inside.

**marco1049**

## **Windows XP Embedded, Mobile 6, Visual Studio C#**

**Our developers work in Visual C# and ASP.NET for maximum compatibility and application speeds, using Microsoft Windows XP**

### **Features include:**

**Internet Access**

**Windows Updates applied automatically**

**Remote Access to the device for easy support**

**Speed and stability**

**Custom applications created by Windows Developers**

**Add or remove devices, install drivers easily**

**TCP/IP Networking to connect to servers**

**Windows embedded devices can run as Media Centers,  
Web Servers, Desktop Computers, PDA's and just about  
anything else you can think of, at a fraction  
of the licensing costs.**

A collage of images illustrating various embedded devices and software. In the top left is a round analog clock. Below it is a computer monitor displaying a software interface with a grid of buttons and a central dialog box. To the right of the monitor is a server rack unit with a yellow label. Below the server is a small white card with red text. In the bottom center is a handheld PDA device with a screen showing a menu and a "Tracker" application window.
